

H1N1 FLU

The media has us well aware of the H1N1 Flu outbreak. The staff and faculty of St. Rose of Lima school are doing its best to remind students about proper hygiene and ask you to remind your children of those habits as well. We are informed and updated about this condition through many reliable sources. Below is a list of web sites with references to help all of us with precautions we can take as well as what we can do in preparing us to cope through this time.
